attended the online webinar

An introduction to a patient journey through direct access on 7th Dec 2020

2 hour E-CPD

Quality Assured by British Association of Dental Therapists QA Team

Learning Outcomes: A,B,C

Learning Aims

An introduction to increase knowledge and confidence of how to undertake direct access on dental patients.

Learning Objectives

- Discuss the consent, indemnity, triage and medico legal issues for a direct access patient.
- Recognise medical conditions/medications that might impact on treatment.
- Describe how to undertake a full patient history, to include dental, social, E/O and I/O assessment, periodontal, caries and oral cancer screening
- Identify normal and abnormal lesions within the oral cavity.
- Recognise features on radiographs to aid treatment.
- Discuss how to formulate a treatment plan for the direct access patient.
- Recognise when to refer patients to another relevant clinician/health care professional.
